

Louis J. Scala, M.D., FACC, FASA

CARDIAC CARE GROUP

Cardiac Care Group was established by Dr. Louis J. Scala, medical director and Anthony Giordano, director of operations. Dr. Scala brings with him vast experience in clinical cardiology from Orlando, as well as specialized academic training from Cedars-Sinai Hospital (UCLA) in Los Angeles, and achieved his internal medicine training from Brown University in Rhode Island.

Cardiac Care Group provides comprehensive adult cardiology services that include noninvasive/invasive diagnostic procedures and therapeutic interventions.

Cardiac Care Group is proud of being accredited by the Intersocietal Accreditation Commission (IAC) in nuclear/PET and echocardiography.

Commitment to quality is fundamental to Cardiac Care Group. Dr. Scala is certified in cardiology and internal medicine and has extensive experience in nuclear cardiology protocols originally pioneered in Cedars-Sinai Hospital (UCLA) in Los Angeles.

Cardiac Care Group uses state-of-the-art diagnostic equipment and a superlative staff to assist in high-quality health care delivery. We want each and every patient to leave our facility feeling that we have exceeded their expectations, both medically and professionally. Dr. Scala emphasizes preventative cardiology and early screening. He always wonders "Why do most patients seek help only after an event has already occurred?"
